

WILL YOU BE AFFECTED BY GDPR?

On the 25th of May 2018, the EU's General Data Protection Regulation (GDPR) will come into effect. Whilst that may feel like a lifetime away, the reality is that if you haven't already started assessing, planning and implementing processes to ensure your organisation's compliance, time is running out.

The event will give you a chance to discuss best practice and prepare you for what your GDPR readiness strategy may be.
